ACHC and PowerDMS Form Tech Partnership

CARY, N.C. – Accreditation Commission for Health Care (ACHC) announced today it is partnering with PowerDMS, a leader in secure, cloud-based policy management technology. The partnership provides exciting possibilities for simplifying and maintaining compliance for those who are both ACHC and PowerDMS customers.

“The benefits of this partnership are many. PowerDMS has built its policy management system integrating our ACHC Accreditation Standards into their internal system,” said Patrick Horine, ACHC vice president, Acute Care Services. “This allows our mutual customers to have policy management systems that include their accreditation processes as well. Streamlining policy management allows customers to focus on their businesses and patients.”

“PowerDMS is extremely pleased to partner with ACHC to better serve our mutual customers,” said Josh Snyder, PowerDMS VP of Strategic Partnerships. “At PowerDMS, our thousands of customers have shown us that the combination of world-class accreditation services with world-class software tools to manage compliance can have transformative effects on the organizations that leverage them.”

The collaboration gives clients of PowerDMS exclusive pricing on ACHC Accreditation. Discounts are also available for ACHCU educational resources.

About PowerDMS

Founded in 2001, PowerDMS offers a cloud-based compliance management platform that helps users reduce risk and liability and increase efficiency. The company provides software tools to organize and manage an organization’s critical documents and industry accreditation standards and allows for training and testing of employees. Most of the 8,000+ PowerDMS customers represent high-risk industries with critical compliance requirements in the healthcare, government, and commercial sectors.
