

From Hours to Minutes: Hillsdale Sheriff's Office Enhances Productivity with Shift Bid Technology

Hillsdale County Sheriff's, MI

CASE STUDY

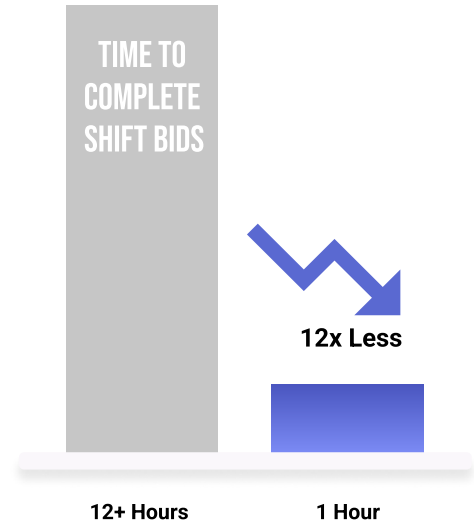

CHALLENGE ONE

It took their sergeant up to an hour just to get their shift bids set up in Excel. Then, it could take a whole 12-hour shift to approve and create the new schedule.

✓ OUTCOME

Saving time on the entire process

With shift bids in PowerTime, it takes them less than an hour to complete the whole shift bid process.

The screenshot shows a 'Request Time Off' form with the following fields: 'Date', 'Start Time', and 'End Time' (with a time selection interface), and a 'Bank' dropdown menu. There is a '+ Add Another Entry' button and a 'Submit Request' button at the bottom.

CHALLENGE TWO

Manually managing shift bids meant that their sergeant had to schedule his vacations around shift bids. No one else knew how to prepare the schedule because the process was so complex.

✓ OUTCOME

Flexibility to take the time off he needs

With a cloud-based system, he can take his vacation whenever he wants and continues the shift bid process with just a few clicks.
